

Bio:

Branko Deljanin is President and Head Gemologist at CGL-GRS, Vancouver (Canada). He is a research gemologist with extensive experience in advanced testing of diamonds and gemstones and Advanced diamonds and gemology instructor in 17 countries. Branko has conducted on-site research on gems and colored diamonds in Sri Lanka, Russia, Brazil and Australia, and has managed many projects on natural, treated and synthetic diamonds.

He is expert in identification of natural, treated and synthetic diamonds and gems for subsequent certification and works with advanced spectrometers to determine origin of color for colored diamonds and gems.

Branko is instructor of “**Advanced Gemology**” programs on diamonds and coloured stones he is offering in Canada, USA, Russia, Brazil, Europe (Austria, Greece, Germany, Italy, Montenegro, Cyprus, Spain, Switzerland, UK, Turkey), Australia and Asia (Hong Kong, Thailand).

He has been a regular contributor to trade and gemological magazines and presented reports at a number of prestigious research and gemological Conferences, including Mediterranean Gemmological and Jewelry Conference that he co-founded in 2015.
